## Professional Summary

Highly accomplished and breath-taking (literally) Air Master with over 35 years of survival experience, transitioning into a decade-long saga of elite domestic management. Proven track record in manipulating oxygen levels to avoid doing chores, successfully scaling baby-care operations, and surviving the unpredictable weather of a spouse's mood. Adept at bridging the gap between deadly martial arts and cooking the perfect medium-rare steak. Currently embarking on a quest as an innovative light novelist to document these absurd realities, seeking to leverage a lifetime of plot twists to unlock the ultimate potential between fantasy, humor, and Git version control.

## Experience

**Lead Light Novelist @ Lost Signaling** (GitHub: phuctanpham/lost-signaling) | Remote | 2024 – Current

- **World-Building Strategy:** Engineered an entire universe while folding laundry. Successfully deployed my first masterpiece, "Lost Signaling," directly to GitHub because Git is the only way to track my chaotic plot lines without losing my mind.

- **Performance & Impact:** Achieved a 100% cliffhanger rate, ensuring readers suffer almost as much as I do when stepping on a rogue Lego at 2 AM.

- **Character Psychology:** Utilized 10+ years of studying women's psychology to write female protagonists whose motivations are actually realistic, reducing "Mary Sue" complaints by 99.9%.

**Senior Househusband @ The Pham Residence** | Onsite | 2014 – 2024 (10 Years)

- **Baby Care Ops & Tactical De-escalation:** Managed highly volatile, screaming biological entities. Reduced midnight crying incidents by 40% using advanced gentle-breeze rocking techniques and aerokinetic lullabies.

- **Culinary Arts (Chef Master):** Architected daily nutritional solutions. Successfully convinced a 3-year-old that broccoli are "tiny trees of power," increasing vegetable consumption KPIs by 300%.

- **Women's Psychology Analytics:** Mastered the ancient art of "knowing when to just listen and not offer solutions." Increased marital survival rate to 99.99% through rigorous sentiment analysis of the phrase "I'm fine."

- **Domestic Logistics:** Implemented Lean Six Sigma principles to fridge organization (Fridge Tetris) and optimized stain removal workflows to achieve a zero-backlog laundry queue.

**Air Master (Survival Mode) @ The Earth's Atmosphere** | Earth | Feb 1990 – 2014 (24 Years)

- **Oxygen Management:** Successfully breathed in and out continuously without dying for over three decades (started training in the womb to achieve 35+ years of experience by age 36).

- **Wind Manipulation:** Controlled micro-air currents to dramatically flutter coat tails during epic entrances and perfectly flip pancakes without a spatula.

## Skills

**Elemental Technique:** Aerokinesis, Tornado Summoning, Passive-Aggressive Sighing, Draft Prevention.

**Domestic Management:** Advanced Diaper Logistics, Stain Removal Alchemy, Fridge Tetris, Budget Negotiation.

**Literary Expertise:** Keyboard Smashing, Plot-Hole Patching, Writer's Block Evasion, Markdown Formatting.

**Data & Analytics:** Wife's Mood Forecasting (85% accuracy - the other 15% is classified as "Acts of God").

## Honors | Awards | Professional Activities
